SCOPRI / DISCOVER

# Infinity & Class:

## La storia

Innovazione e tradizione del vero made in Italy

Inizia nel 1898 la storia di Friulsedie, quando Pietro Dalmasson, all'età di 16 anni, comincia a produrre secondo l'antica tradizione artigianale dei seggiolai friulani, le prime sedie impagliate denominate "Marocca" e "Marsiglia" a San Giovanni al Natisone, in Friuli, cuore dell'area che diventerà il distretto italiano della sedia.

Una crescita attenta, quella portata avanti dalla famiglia Dalmasson, durante la quale è sempre restato saldo il concetto di **innovazione nel rispetto della tradizione, all'interno di una filosofia aziendale che esprime l'etica imprenditoriale del vero made in Italy.**

## The history

Innovation and tradition of real Made in Italy

The history of Friulsedie starts in 1898 when Pietro Dalmasson, who at the time was 16, following the ancient traditions of the Friuli masters started to produce his first cane chair models Marocca and Marsiglia at San Giovanni al Natisone, in Friuli, the heart of the area that was to become the most important Italian chair manufacturing district.

Over the decades the Dalmasson family has steadily expanded the business relying on **innovation and tradition and a company philosophy that merges the values of both North and South, expressing the true "made in Italy" business spirit.**

## L'azienda

Una realtà fatta di storia e di passione

Oggi Friulsedie è una realtà produttiva fatta di uno stabilimento moderno, insediato su una superficie di **20.000 mq, di cui oltre 6000 coperti**, dotato di impianti all'avanguardia con linee di produzione altamente automatizzate, in grado di garantire la **realizzazione di 1.000 sedie e 100 tavoli al giorno.**

Il complesso aziendale è integrato dalla palazzina di 800 mq riservata agli uffici e allo spazio espositivo, dedicato ai meeting e al settore contract.

## The Company

A reality made of history and passion

Today Friulsedie has a modern production facility covering **20.000 s.q.m. with a built-up area of more than 6.000 s.q.m.** Our modern plants and highly automated production lines give us a **capacity of 1.000 chairs and 100 tables a day.**

Our modern offices and showroom cover 800 s.q.m. and are dedicated to meetings and the contract division.

## Il rispetto dell'ambiente e il prodotto ecosostenibile Respect of the environment and the environmentally friendly products

Particolare attenzione viene posta, nella fase di ideazione, progettazione e scelta dei materiali **all'impatto ambientale del prodotto finale sia nella fase di produzione sia alla fine del ciclo di vita, con il riciclo dei suoi componenti.** Ed è proprio in quest'ottica che i principali fornitori di legname sono stati selezionati tra quelli in possesso di **certificazione FSC (Forest Stewardship Council) che attesta la gestione responsabile delle foreste in tutto il mondo nel rispetto dell'ambiente e conservazione delle risorse naturali oltre al rispetto dei diritti dei lavoratori e delle comunità locali.**

Inoltre, i materiali utilizzati sono scelti tra quelli (ferro, alluminio, vetro, plastica, legno) che hanno il minimo impatto ambientale alla fine del ciclo di vita del prodotto garantendone la totale riciclabilità.

Particular attention is focused on **the environmental impact of the final product during the phase of conception, design and choice of materials both in the phase of production and at the end of the life cycle, with the recycling of its components,** and in this perspective the principal timber suppliers have been selected among those with **FSR certification (Forest Stewardship Council) that certifies the responsible management of the forests worldwide with respect to the environment and the conservation of natural resources besides the respect of the rights of the workers and the local communities.** Furthermore, the materials used are chosen among those (iron, aluminum, glass, plastic, wood) which have the least environmental impact at the end of the life cycle of the product, ensuring its total recyclability.

# Ricerca e sviluppo / Research and Development

La nostra creatività in ogni progetto / Our creativity in every project

Funzionalità e design, sapiente abbinamento di materiali diversi legno/metallo/vetro/plastica/cuoio, complessità progettuale per la massima facilità d'uso: questi sono i principi che orientano ricerca e sviluppo dello Studio Tecnico Friulsedie e la creatività dei designers esterni per le nuove collezioni. A questo deve corrispondere un'elevata affidabilità e durata nel tempo del prodotto.

Function and design, a wise combination of different materials such as wood/metal/glass/plastic/leather, a complex planning for the maximum ease of use: these are the principles that guide the research and development of the Technical Office of Friulsedie and the creativity of the external designers for the new collections. A high reliability and product durability must correspond to this policy.

Legno Wood    Metallo Metal    Plastica Plastic    Vetro Glass    Cuoio Leather    Tessuti Tissues

## Qualità / Quality

Garantire il meglio / Ensuring the best

Severe prove tecniche, per le quali ci si avvale del **CATAS** (Centro Assistenza Tecnica per le Aziende di Sedie e Mobili), vengono effettuate sia sui prototipi (prima della messa in produzione), sia sui prodotti finiti al fine di **verificare la validità dei criteri costruttivi, l'assenza di criticità strutturali e assicurare la qualità finale.**

Strict technical tests, with reference to **CATAS** (Centre of Technical Assistance for Companies of Chairs and Furniture) are carried out both on prototypes (before put in production) and on finished products in order to **verify the validity of the construction criteria, the absence of structural criticality and to ensure final quality.**

# Casa & Contract Home and Contract

Un servizio costantemente attento e mirato / A constantly alert and targeted service

Contraddistinta da due divisioni principali, Casa e Contract, l'azienda si rivolge a rivenditori, produttori e operatori del contract, offrendo una gamma di articoli che comprende oltre duecento modelli tra tavoli, sedie, poltrone e sgabelli. Gli articoli dedicati al contract rappresentano un momento importante della produzione aziendale.

Il rigore delle prescrizioni normative in materia di ricezione alberghiera prevede che i prodotti debbano rispondere a **requisiti massimi di sicurezza relativa alla reazione al fuoco.** L'esperienza maturata dalla Friulsedie nel campo del contract fa sì che l'offerta sia caratterizzata da materiali idonei, tessuti e schiumati ignifughi e da una classe di **modelli dotati di omologazione ministeriale per le esigenze più specifiche.**

I clienti contract della Friulsedie hanno, inoltre, il vantaggio di poter richiedere **la personalizzazione sugli ordini** a partire dalla vasta gamma di finiture a campione, fino alla realizzazione di serie complete di articoli su specifiche indicate.

Characterized by two principal sectors, Home and Contract, the company deals with retailers, manufacturers and operators in the contract division, offering a range of articles that includes more than two hundred models among tables, chairs, armchairs and stools. The products dedicated to the contract sector represent an important moment of the company production.

The rigor of the regulatory requirements relating to hotel reception provides that products meet the highest requirements of safety with respect to reaction to fire.

The experience gained by Friulsedie in the field of contract means that the offer is characterized by suitable materials, fabrics and fireproof foam and a class of models with ministerial approval for specific needs, also providing personalization on orders from a wide range of finish samples, up to the realization of complete series of specific indicated articles.

# Vetro Velvet Antigraffio

Velvet Antiscratch glass

Velvet Antiscratch è un vetro satinato in lastre su base float Element.

Grazie ad un particolare trattamento chimico superficiale, Velvet Antiscratch è caratterizzato da una forte resistenza meccanica ai graffi e alle abrasioni.

Velvet Antiscratch is a satinated glass sheet on Element float basis.

Due to a particular surface chemical treatment, Velvet Antiscratch is characterized by a strong mechanical resistance to the scratches.
