

SOUL OF
outdoor

 ATMOSPHERA®

 ATMOSPHERA®

our soul LIVES OUTSIDE

Riscoprire il rapporto con la natura attraverso l'esperienza diretta e l'osservazione privilegiata dell'ambiente. Concepire lo spazio esterno come il vero spazio a misura d'uomo, dove il tempo e la materia si fondono in un tutt'uno dimensionale.

La continua ricerca di soluzioni innovative esplora molteplici situazioni, mercati complessi e culture differenti: dall'ambiente domestico agli spazi dell'ospitalità, dal mondo del benessere alla cura degli spazi pubblici in ambiente professionale. Questa è la sfida progettuale e produttiva che ci guida nello sviluppo dei nostri prodotti e dei progetti, nello studio dei materiali idonei e nella cura dei dettagli che rendono unici i prodotti che realizziamo. Questa è la filosofia che accompagna la nostra ricerca del bello e del vivere bene.

Questo è il nostro spirito, il nostro soul of outdoor.

To discover the relationship with nature through direct experience and favored observation of environment. To conceive the external space as the real people-oriented space, where time and matter blend together in a unique dimension.

The endless research of innovative solutions explores a lot of situations, complex markets and different cultures: from the domestic environment to hospitality spaces, from wellness world to the care of public space in a professional environment. This is the design and productive challenge, that drives us in the development of our products and projects, in the study of suitable materials and in the care of productive details that make our products unique pieces.

This is the philosophy that goes with our research of beauty and living well.

This is our spirit, our soul of outdoor.

GIORNI PER VIVERE ALL'APERTO
DAYS TO LIVE OUTSIDE

Tutti i materiali utilizzati nelle collezioni outdoor sono adatti per rimanere all'aperto. Resistono infatti ad abbondanti escursioni termiche, sono resistenti ai raggi UV, all'acqua, alla salsedine e agli agenti atmosferici in genere. Atmosphera raccomanda di coprire o stivare all'interno i prodotti durante l'inverno per una durata maggiore. Tutti i prodotti hanno una naturale usura nel tempo, ma possono essere rigenerati con kit specifici. I rivestimenti tessili, sono prodotti con tessuti italiani di alta qualità adatti a resistere all'esterno e confezionati da Atmosphera in Italia.

All materials used in our Outdoor collections are suitable to stand outside. They resist to wide temperature range, to UV rays, to water, to salt and to all atmospheric agents. Atmosphera suggests to cover or to keep inside the furniture during the winter in order to extend its life time. All products have a normal wear in the course of time, but they can be restored with specific maintenance kits. Upholsteries are realized by Atmosphera with Italian fabrics of high quality, suitable for outdoor use.

SOSTENIBILITÀ

e rispetto per l'AMBIENTE

SUSTAINABILITY
and respect for ENVIRONMENT

Atmosfera considera valori essenziali per lo sviluppo delle proprie attività aziendali il rispetto e la salvaguardia dell'ambiente, in linea con la normativa vigente nei vari paesi di produzione. La tutela della salute, l'accrescimento delle condizioni sociali e la sicurezza dei lavoratori nei paesi in cui Atmosfera opera sono condizioni fondamentali della policy aziendale. Inoltre non sono ammessi lavoratori minorenni e i salari sono regolamentati dalla legislazione dei paesi in cui l'azienda opera.

Atmosfera, while developing its business, considers as essential values the respect and the environment protection, respecting current regulations of different countries where goods are produced. Healthcare, improvement of social conditions and worker security in the countries where Atmosfera works, are essential conditions of company policy. Moreover, underage workers are not admitted and salaries are regulated by legislation of countries where Atmosfera works.

The UN Global Compact is a strategic policy initiative for business that are committed to align their operations and strategies with ten universally accepted principles.

Atmosfera Catalogue 2017 is printed with vegetable-based colours on FSC® certified paper.

DESIGN BY

atmosphera CREATIVE LAB

Tutti i prodotti sono sviluppati e disegnati interamente nell'Area Design & Marketing da un team dedicato, questo perché crediamo nella forte relazione tra identità aziendale e prodotto. Le idee nascono dalle esperienze, dai viaggi e da tutto l'ambiente esterno che è in costante evoluzione: da questo i nostri designers traggono parte delle idee creando oggetti che rispecchino la nostra cultura e il nostro voler essere parte del mondo. Ricerca formale e cura dei dettagli, sono elementi fondamentali per una proposta di alto profilo capace di dare una risposta esclusiva a quella richiesta di modernità che nel mondo dell'outdoor è stata fin'ora disattesa. Il nostro stile nasce dalla creatività e cultura italiana caratterizzata da eclettismo ma attenzione al comfort e alle esigenze dei clienti. I nostri prodotti non vogliono essere frutto di tendenze temporanee ma oggetti che durino nel tempo e siano riconoscibili.

All products are designed and developed in our Design & Marketing Area by a devoted team, since we believe in the strong relationship between company identity and product. Ideas are born from experiences, travels, and all outside environment in constant development: our designers draw on all that, creating objects that reflect our culture, our wish to be part of the world. Formal research and care for details are essential elements of our high profile proposal, able to give an exclusive answer to that request of innovation, up to now ignored in the outdoor world. Our style comes from Italian creativity and culture, marked by eclecticism but at the same time close to comfort and customers demands. Our products are not the result of temporary trends but they are long-lasting recognizable objects.

DESCRIZIONE
DESCRIPTION

Flash è il divano modulare caratterizzato dall'intreccio a mano di corde termoplastiche in fibra acrilica di Teflon, resistenti all'acqua e di facile pulizia. Il materiale presenta un appeal morbido e raffinato simile ad intrecci tessili. Si caratterizza per la sua resistenza ai raggi UV e per la velocità di asciugatura. I colori delle finiture sono il bianco avorio melange e un grigio con filamenti di color sabbia. I piani dei tavoli sono caratterizzati da un effetto materico di pietra naturale color grigio antracite.

Flash is a collection characterized by an hand-woven Teflon acrylic thermoplastic rope, water-resistant and of easy cleaning. The material is characterized by a "soft" appeal similar to a textile product and its main characteristics are the resistance to UV rays and the quick drying. Available colours: white/ivory mélange with grey mélange with sandy filaments. Tables top are made of natural stone in grey anthracite.

DESERT
DESCRIZIONE
DESCRIPTION

Desert è la collezione in pura essenza di legno di teak indonesiano. Il caratteristico color miele del teak, unito a dettagli in acciaio satinato, conferiscono alla collezione un aspetto classico ed eterno nel tempo con linee moderne e avvolgenti. Con il passare del tempo, il colore mielato del legno di teak diventa argenteo, in quanto la naturale esposizione all'esterno attua un processo di ossidazione dello strato più esterno della superficie esposta. Per far tornare il colore al suo stadio originale mielato, basta detergere la superficie con acqua e sapone neutro rimuovendo eventuali impurità con spazzole a setole dure. E' altresì consigliato l'utilizzo di oli per teak che ne ripristinano la naturale morbidezza e idratazione.

DESERT
COMPOSIZIONI
COMPOSITIONS

DESERT
DESCRIZIONE
DESCRIPTION

Desert is the collection made of pure Indonesian Teak wood. The typical honey color of Teak wood together with satin stainless steel details, gives to the collection a classical and eternal appeal with modern and cozy lines. Time passing, the honey color of Teak wood becomes silvery, since the natural outside exposure implements a process of oxidation of the outer surface layer. In order to refresh the original honey color, it's suggested to clean the surface with water and neutral soap and to use a stiff brush to remove dirt. It's also recommended the application of specific oils for Teak to renew its natural softness and moisture.

HOLD Plaid

PLAIDS E CUSCINI

PLAIDS AND DECORATIVE CUSHIONS

Le coperte Hold sono realizzate in tessuto 100% acrilico tinto in massa. Ideale per le serate estive all'aperto, morbido e confortevole per accompagnare i tuoi momenti di relax. L'inconfondibile qualità dei prodotti viene riconosciuta nel plaid che oltre ad essere un elegante complemento d'arredo si qualifica per la sua specifica praticità essendo antimacchia, lavabile e resistente al sole per sei anni.

Hold plaids are made in 100% acrylic fabric solution dyed. It is ideal for summer evenings spent outdoors, soft and comfortable for your moments of relaxation. The unique quality products can also be recognized in the plaid blanket, which is not only an elegant piece of home furnishing but it is also practical being stain proof, washable and will not fade if left in the sun for six years.

Decorative Cushions

TAPPETI

DECORATIVE CARPETS

Tappeti realizzati in fibra di poliestere e polipropilene intrecciati a mano. Composizione 85% poliestere, 15% polipropilene. Non utilizzare spazzole, utensili abrasivi o candeggianti per rimuovere le macchie. Eventuali fili che fuoriescono dalla superficie vanno tagliati con delle forbici. Si raccomanda di non tirare i fili.

All the carpets are made in polyester and polypropylene and handmade weaving. Composition 85% polyester, 15% polypropylene. Don't use brushes, abrasive hand tool, bleach to remove dirty. Cut with scissors filaments that can coming out. Don't pull possible filaments.

DESERT Carpet

TELO DI COPERTURA Furniture covers

TELI DI COPERTURA

FURNITURE COVERS

Tutti gli articoli Atmosfera possono essere dotati di relativo telo di copertura in poliestere per protezione dai raggi solari, pioggia, neve e agenti atmosferici in genere.

Coprire i mobili favorisce il mantenimento a lungo termine specie con l'arrivo della primavera e dell'inverno, ritardandone l'invecchiamento.

Composizione: poliestere 1100 Dtex spalmato PVC 1 lato, trattato vernice opaca su un lato. Peso del tessuto: circa 460 gr/m² | Solidità tinta raggi UV: livello 7/8. Resistenza alle temperature: +70°C/-30°C. Non utilizzare solventi per la pulizia ma acqua calda e un detergente neutro.

Polyester thermo joined furniture covers for sun rays, rains, snow and atmospheric agents.

Covering furniture for the winter makes spring cleaning easier and prolongs the life all the furniture.

Composition: 1100 Dtex one-side matt lacquered PVC coated polyester.

Weight: ca 460 gr/m².

UV colour fastness: 7/8.

Resistance to temperatures: +70°C/-30°C.

Solvents are not suitable for cleaning. Use warm water and gentle upholstery cleaner.

SHADE Gazebo

SHADE Detail Gazebo

SHADE è un frangisole orizzontale a completa tenuta d'acqua. Unico in commercio ad avere la superficie superiore ed inferiore perfettamente liscia. Questo facilita la pulizia evitando che eventuali residui di foglie si incastrino tra le lame e ricadano sulla parte sottostante in caso di apertura. La regolazione millimetrica di movimentazione varia da 0 a 135° permettendo una gradevole ventilazione nei mesi estivi e una buona luminosità nelle giornate più grigie. SHADE può essere installato all'interno di strutture in alluminio, acciaio o legno perfettamente orizzontali, mantenendo un'inclinazione delle lamelle dello 0,5%, non percepibile esternamente ma necessaria al deflusso dell'acqua. Possono essere integrati sistemi di illuminazione con faretti o barre Led, chiusure laterali in vetro, tendaggi ed eventuali impianti di condizionamento. Realizzabile per dimensioni e layout, su progetto cliente.

SHADE is an horizontal sunshade completely waterproof. It is the unique shading system featuring perfectly smooth upper and lower surface. This ensures easy cleaning and prevents any residual foliage to be caught between the blades and fall in the underlying part during the opening. The system regulating the opening of the sunblinds from 0 to 135 degrees, ensures a pleasant ventilation in the summer and a good brightness in cloudy days. SHADE can fit any kind of structure or material, such as aluminum, steel, wood. The support frame is characterized by a slight slope of 0,5 %, in order to allow the water outflow. It is possible to integrate spotlights or led strips inside the structure system, glass side walls or curtains and any air conditioning system. Dimensions and layout customized on client request.

ACCIAIO ALLUMINIO TEAK TEXTILENE

STEEL ALUMINIUM TEAK TEXTILENE

Tutti i nostri mobili in alluminio hanno una verniciatura a polveri in colore bianco e grigio, che garantisce una superficie resistente a urti e graffi. L'arredo è molto adatto per mantenersi all'esterno durante tutto l'anno ed è di facile pulizia. Atmosphaera utilizza acciaio 304, materiale adatto per utilizzi in esterno. Da precisare che l'ossidazione può verificarsi in forma di corrosione superficiale. Il tutto può essere rimosso utilizzando un detergente in acciaio inox. Pulizia regolare con acqua saponata può contribuire a proteggere la superficie dell'acciaio inox e quindi minimizzare gli effetti di cloro, ect. Si consiglia inoltre di pulire il telaio con oli privi di acidi, almeno due volte l'anno per ridurre al minimo l'appannamento. Le parti tessili sono in textilene idrorepellente e resistente agli agenti atmosferici. Atmosphaera utilizza solamente termosaldatura a caldo come sistema di taglio e confezionamento garantendone solidità e durabilità.

All our aluminium furniture is powder coated, color white and grey. The powder coating ensures a surface resistant to knocks and scratches. The furniture is well-suited to be left outside all year long and is easy to clean. Atmosphaera uses stainless steel 304 that is ideal for outdoor. However, tarnishing can occur in the form of flash rust. This can be removed by using a stainless steel cleaner. Regular cleaning with soapy water can help to protect the surface of the stainless steel and thus minimise the effects of chlorine, ect. It is also advisable to wipe the frame with acid-free oil at least twice yearly to minimise tarnishing. The textile components are in textilene that is waterproof and weather resistant. Atmosphaera uses only thermo-welded manufacturing system that guarantees strength and durability.

TEAK

TEAK

Atmosfera utilizza legno di teak Indonesiano naturale trattato e oliato per esterni. Con il passare del tempo, il colore mielato del legno di teak diventa argenteo, in quanto la naturale esposizione all'esterno attua un processo di ossidazione dello strato più esterno della superficie esposta. Per far tornare il colore al suo stadio originale mielato, basta detergere la superficie con acqua e sapone neutro rimuovendo eventuali impurità con spazzole a setole dure. E' altresì consigliato l'utilizzo di oli per teak che ne ripristinino la naturale morbidezza e idratazione. Non usare prodotti a base alcolica o acetoni: l'impiego di sostanze chimiche potrebbe deteriorare e aggredire le superfici.

Atmosfera uses pure Indonesian Teak wood. The typical honey color of Teak wood together with satin stainless steel details, gives to the collection a classical and eternal appeal with modern and cozy lines. Time passing, the honey color of Teak wood becomes silvery, since the natural outside exposure implements a process of oxidation of the outer surface layer. In order to refresh the original honey color, it's suggested to clean the surface with water and neutral soap and to use a stiff brush to remove dirt. It's also recommended the application of specific oils for Teak to renew its natural softness and moisture. Do not use products with alcohol or acetones: the use of chemical substances could damage and spoil the surface.

FIBRE INTRECCIATE

WEAVING FIBERS

Gli intrecci sapientemente tessuti a mano sono realizzati in resina sintetica di polietilene estruso ad alta densità. I materiali utilizzati richiamano fedelmente le fibre naturali più pregiate ed offrono elevati standard qualitativi. Rimangono inalterati nel tempo, resistono infatti agli agenti atmosferici come la pioggia, l'acqua salata ed il colore non vira all'esposizione dei raggi solari. Strutture | Alluminio verniciato epossidico. Composizione | Estruso di polietilene solidificato ad acqua. Caratteristiche | Lavabile, resistente, leggero, morbido e riciclabile. Resistente ad acqua, salsedine, raggi UV, neve ed agenti atmosferici.

The weavings, skilfully hand-worked, are made of a synthetic resin of high density extruded polyethylene. The materials employed for the furnishing remind the most valuable natural fibres (rattan, wicker, bamboo) and offer high standard of quality. They are durable and resistant to any atmospheric agent such as rain, salt water and their colour is UV proteted. Structures | Aluminium frame epossidic. Composition | Extruded polyethylene, water solidified. Characteristics | polyethylene, cannot, be damaged by water, rain and salt water; it is UV and scratch protected and resistant to any atmospheric events. It is maintenance free, easy to clean, safe, resistant and recyclable.

HPL

HPL

HPL, high pressure laminate, è un laminato decorativo. È formato da diversi strati di carta impregnata di resina fenolica con fogli decorativi esterni impregnati di resina melammica: gli uni e gli altri vengono impregnati con resine termoindurenti. Per tale composizione è un materiale indicato per piani esterni in quanto resistente agli agenti atmosferici. HPL, high pressure laminate, is a decorative laminate. HPL make up of several layers of paper impregnated of phenolic resin with resin impregnated decorative external melammic: the one and the other are impregnated with thermosetting resins. For this composition, HPL is a material indicated for exterior table tops resisting atmospheric agents.

ACRYLIC fabrics

Tempotest Home®

Resistenza

Antimacchia | Il particolare fissaggio di Tempotest Home favorisce l'eliminazione delle macchie.

Mantiene il colore e la resistenza | La fibra in acrilico 100% tinta in massa resiste alla scoloritura dovuta al sole, all'acqua e a tutti gli agenti atmosferici in generale.

Imputrescibile | Adatto anche per ambienti ad alta umidità come bagni e verande coperte, non permette la formazione di muffa. Adatto per l'arredamento di esterni e di interni (zona living, camera dei bambini, cucina).

Manutenzione e pulizia | Molte macchie sui tessuti Tempotest Home possono essere tolte con una semplice soluzione di acqua e sapone. Rimuovere semplicemente spazzolando via lo sporco; pulire con acqua (non più di 40°C) e sapone naturale.

Risciacquare accuratamente per rimuovere il sapone. È possibile lavare gli sfoderabili a secco o in lavatrice con acqua fredda, ma senza centrifugare. Nel tempo, per ripristinare la naturale perdita di idro-oleorepellenza, è consigliabile l'uso dello spray T202 che è possibile richiedere al proprio rivenditore. Non stirare il tessuto con il vapore e non farlo asciugare in apparecchi elettrici. Lasciate asciugare il tessuto all'aria.

Durante la stagione invernale riporre il tessuto in ambiente asciutto e ventilato.

Garanzia | I tessuti della Collezione Tempotest Home sono coperti da garanzia per un periodo di 3 anni. Tale garanzia copre esclusivamente la perdita di colore dovuta alla normale esposizione all'azione del sole, della salsedine e degli agenti atmosferici in generale. La garanzia non copre i danni derivanti da cause di forza maggiore, azioni meccaniche o atti dolosi.

Resistance

Soil-resistant | The particular finishing of Tempotest Home favours the elimination of stains.

It retains colour and strength | 100 % solution-dyed acrylic fibre resists fading from sun, water and general atmospheric agents.

Mould resistant | Suitable even for very damp places like bathrooms and screened-in porches, it does not allow mould growth.

Perfect for outdoor and indoor furniture (living room, kids' room, kitchen).

Cleaning Instructions | Most stains on Tempotest Home fabrics can be cleaned with a mild soap and water solution. Remove the dirt simply by rubbing with water (not more than 40°C) and natural soap. Removable covers can be dry-cleaned or washed by machine in cold water, however without using the spindryer. Eventually, in order to re-establish the natural loss of oil and water repellence, it is advisable to use the spray T202 obtainable from your dealer or retailer.

Do not steam iron and do not dry with electric sets. Air dry. During the winter season put the fabric in a dry and airy place.

For stubborn stains, follow the directions of Acrylic Stain Cleaning Chart.

Guarantee | The fabric Tempotest Home is covered by a 3 years guarantee. This guarantee covers the fabric becoming unserviceable due to the colour loss after the normal exposure to the sun, the salinity and general atmospheric conditions.

The guarantee does not cover damages due to factors beyond Parà's control, mechanical or malicious acts.

FORTUNY TESSUTI POLIPROPILENE
FORTUNY POLYPROPYLENE FABRICS

NON IDROREPELENTE - 100% POLIPROPILENE. Il tessuto Fortuny non essendo idrorepellente assorbe l'acqua pertanto per gli arredi rivestiti in questo materiale consigliamo una destinazione d'uso in spazi riparati quali pergole, portici, gazebo o altre strutture. Non succede nulla se il cuscino viene dimenticato qualche volta sotto un'acquazzone; consigliamo tuttavia di non lasciare i cuscini costantemente all'aperto. In seguito ad un temporale è consigliabile stenderli fino a completa asciugatura. Amico dell'ambiente in quanto riciclabile al 100%, atossico, anallergico e safe energy. Resistente ai funghi e ai batteri. Ignifugo: conforme alla class1 UNI 8456 (1987) - Italian Fire Safety Classification. Cigarette test schedule 4 part 1 BS5852: PASS. Match test schedule 5 part 1: PASS. Alta resistenza all'abrasione: > 40.000 rubs, UNI EN ISO 12947-2/2000. Alta resistenza alla formazione di pilling: 4/5 (2000 rubs), BS EN ISO 12945:2. Alta resistenza alla luce solare, alla salsedine e al cloro che ne permettono un utilizzo outdoor: light fastness UNI EN ISO 105 - B02 (blu scale) light colour: 6/7; medium colour: 7; dark colour: 7. Tessuto lavabile a 30°C, Martindale 50.000. Non usare detersivi che contengono ossidanti o candeggianti ottici.

NO WATERPROOF - 100% POLYPROPYLENE. The fabric Fortuny absorbs water since it is not waterproof. So we suggest to put cushions made with this fabric in covered places like pergolas, porches, gazebo or any other structures. After a shower of rain, allow your cushions to dry so as to protect them from mold stains. We recommend storing your cushions for the winter or when not in use for long periods. Before storing, make sure they are fully dry. Maintenance and cleaning guide of the product: environmentally friendly and 100% recyclable, non toxic, non allergenic and energy saving manufacturing process. Resistant to mould and bacteria. Flame retardant: pass class1 UNI 8456 (1987); pass cigarette test schedule 4 part 1 BS5852, EN 1021:1; pass match test schedule 5 part 1 BS5852, EN 1021:1. High abrasion resistance: >40.000 cycles, UNI EN ISO 12947-2/2000. High pilling resistance: 4-5 (2000 cycles), BS EN ISO 12945:2. High resistance to sunlight, saltiness, chlorine: suitable for outdoor use: light fastness UNI EN ISO 105 - B02 (blue scale) light colours 6-7; medium and dark colours 7. Washable 30°C, Martindale 50.000. Do not use detergents containing oxidants or bleaches.

Do not use detergents containing oxidants or bleaches.

CAT. B ECOPELLE CAT. B SYNTHETIC LEATHER

Questa ecopelle idrorepellente deve essere pulita periodicamente per preservarne l'aspetto originario ed evitare la formazione di sporco e quindi la proliferazione di batteri. Sporczia, macchie ed efflorescenze dovrebbero essere prontamente rimosse per evitare che si stabilizzino. Per rimuovere eventuali macchie si consiglia l'utilizzo di soluzioni a base di sapone o un pulitore specifico. Si raccomanda di utilizzare esclusivamente un panno bianco umido. Lacche, inchiostri, pulitori aggressivi, diluenti detersivi o solventi, acetone o alcol possono essere molto efficaci nella rimozione delle macchie, ma allo stesso tempo causare danni immediati al vinile e contribuire al suo deterioramento. Chiunque utilizzi pulitori aggressivi come quelli sopra elencati, se ne assume il rischio.

The water-resistant vinyl should be cleaned periodically in order to maintain its appearance and prevent build up of dirt and bacteria. Any stain, spill or soiling should be cleaned promptly to prevent the possibility of permanent staining. To remove stains use soapy solutions or the specific cleaner. Use only a damp white cloth to remove marks. Lacquers and inks, strong cleaners, detergents, and solvents as thinner, acetone or alcohol can be very effective in removing stains, but cause immediate damage and contribute to the deterioration of the materials. The use of such cleaners is entirely at the owner risk.

9.

ZERO

9.zero rappresenta un sistema di sedute modulari. La semplicità costruttiva dei 9 moduli base consente la realizzazione di un vasto numero di soluzioni compositive per soddisfare molteplici esigenze di spazio e funzionalità. Le strutture sono realizzate da nove doghe ciascuna di nove centimetri in legno di teak indonesiano levigato e oliato. Le imbottiture sono realizzate con gomme drenanti il tutto rivestito con i tessuti per esterni della collezione Atmosphera.

9.zero is a modular combination of seats. The 9 modular bases are easy manufacturing so they can be composed in different solutions to satisfy the different requests of space and functions. The frames are made of nine slats each one is 9 cm made of polished and oiled Indonesian teak. The seat and back cushions are made of drained foam covered by outdoor fabrics of Atmosphera collection.
